Wally the Walleye & “Walleye Capital of the World”
Main Street
Garrison is known as the “Walleye Capital of the World.” Home of Wally the Walleye, the 26 foot Walleye located at the end of Main Street in the City Park. This designation can be attributed to the bountiful fishing opportunities that Lake Sakakawea provides.

Custer Mine Interpretive Site
Highway 37/Highway 83 Intersection
The Custer Mine Interpretive site is a parcel of land that showcases a piece of Garrison’s early coal mining history. Formerly the Triax Valley Mine, the site was established in 1989 as part of North Dakota’s Centennial celebration. The site includes signpost explaining the history of the area and a scenic overlook. A pond is also nearby for fishing.

Queen Elizabus & “Christmas Capital of North Dakota”
Main Street
Garrison is Home of the Authentic Queen Elizabus Double Decker English Bus. Take a ride on the Queen at our annual Dickens Village Festival. Garrison earned the title “Christmas Capital of North Dakota” because of the highly popular annual Dickens Village Festival.

Bobber Water Tower
The Garrison Community is proud of Lake Sakakawea and the opportunities it gives our community. When our community water tower was being built a group of citizens suggested that the new water tower be painted like a bobber with the “Get Hooked on Garrison” logo. Quickly these business leaders and our City Council came up with a plan to make this Garrison’s newest attraction to replace our previous “Hot & Cold” Water Towers!

Lake Sakakawea

The lake named for the Native American woman who joined Lewis and Clark 200 years ago, is the third-largest manmade lake in the United States. It’s filled by the Missouri River and contained by the Garrison Dam, the country’s fifth largest. This huge lake, with more shoreline than California, is home to numerous species. Walleye is the most popular catch, but anglers can also reel in northern pike, Chinook salmon, smallmouth bass, white bass, yellow perch, crappie, and sauger.

Lake Audubon

Lake Audubon is located near Garrison on U.S. Highway 83. This lake is 16,612 acres in size and features 152.8 miles of shoreline. It is 59.90 feet deep at its deepest point and anglers can expect to catch a variety of fish including walleye, smallmouth bass, and northern pike. Audubon Lake, a sister lake to Lake Sakakawea, was also formed with the construction of the Garrison Dam near Riverdale, N.D. The two lakes are separated by an embankment, which carries US Highway 83.
